

PATIENT BILL OF RIGHTS

As a patient, you have these rights:

1. Actively participate as a member of your hyperbaric medicine and wound care team if you are able and willing.
2. Have your medical problem assessed and monitored by trained healthcare personnel.
3. Have your questions about hyperbaric medicine answered openly and completely.
4. Know what other options are available to you.
5. Know the benefits, risks, and side effects of your hyperbaric treatments.
6. Receive timely and cost effective hyperbaric care.
7. Seek other opinions about your hyperbaric related problem if you so desire and consult a specialist as necessary.
8. Have your pain adequately controlled, under supervision of your primary physician.
